

DRIVER STRICKEN BY VERTIGO IN CROWDED STREET

RUNS INTO CURB AND SUSTAINS CONCUSSION OF THE BRAIN.

(By Associated Press.)
LOS ANGELES, Sept. 9.—A. H. Gehr, driver of the police automobile was attacked by vertigo while speeding on a crowded street today. He turned the machine to the curb and dropped unconscious as his car broke a fence and hit a building. Gehr suffered concussion of the brain and bruises.

MRS. DUNWOODY SURPRISED BY DEATH OF SON

TONOPAH LADY'S SUMMER OUTING SUMMARILY ENDED BY SAD NEWS.

After coming to Reno Tuesday to visit her sister Mrs. A. C. Cleveland, widow of the late A. C. Cleveland, who ran against the late John Sparks for governor of Nevada, Mrs. Margaret Clarinda Dunwoody of Tonopah received the news of the death of her only remaining son, John Minerva Moss, at Aurora. She had planned a trip to Lake Tahoe, Sacramento, and possibly San Francisco with Mrs. Cleveland, when her husband arrived, bringing the news, which had been telegraphed from Aurora to Tonopah.

The body, which is at Hawthorne, is to arrive at Carson City tonight, and will be buried in Mrs. Dunwoody's family plot at Carson City, probably Thursday.

Mr. Moss was a native of Eureka, Nev., where he was born November 21, 1874. He was widely known and was very popular. He was a member of the Fallon lodge, Loyal Order of Moose, and of the Musicians' union at Butte, Mont. He formerly resided both at Butte and Caspar, Mont.

Mr. Moss had a wonderful talent for music, was also an artist of ability, and was a man of very happy disposition. At times he had led both a band and an orchestra and had directed a musical enterprise on the stage.

Death was very sudden and is believed to have been caused by apoplexy.

WOMEN OF WOODCRAFT HOLD A CALICO BALL

Thursday evening the Women of Woodcraft held their annual calico ball at Miners Exchange hall. This is an event that is looked forward to with a great deal of pleasurable anticipation. The ladies having charge of the entertainment are Mrs. Anna B. Drounzel, chairman, and Mesdames Nottor, Cleary and Flood.

Two prizes will be awarded for the lady and gentleman who makes the best use of calico—the lady for a complete costume and the gentleman for literal adornment in the same material.

CHICAGO SWELTERS IN HEAT.

CHICAGO, Sept. 9.—The official temperature in the observation tower was 92 today, but down on the streets it was 100 degrees.

JEROME FREED FROM CHARGES

(By Associated Press.)
COATCOOK, Que., Sept. 9.—The acquittal last night of Jerome of the gambling charge was the chief topic of conversation today. On the opinion the verdict is divided. Jerome departed for Albany and New York and will be in Montreal on Monday for the Thaw case.

WASHOUTS DELAY WORK ON WELLS IN RAILROAD VALLEY BUT SUCCESS FINALLY CROWNS COMPANY'S EFFORTS

Repeated cloudbursts and winter storms, deluges and ordinary rain-falls such as never were experienced before in the history of Nevada, conspired to obstruct the work of the Railroad Valley company operating for potash in the eastern end of Nye county. Nevertheless the work is proceeding and the company will continue sinking and boring until they either find potash or prove conclusively that all theories regarding the existence of the salts are without any foundation.

Yesterday afternoon D. S. Walker, superintendent, E. E. Free, geologist, Hoyt S. Gale, government expert in charge of the potash surveys and W. B. Hicks, U. S. chemist, specializing in the same branch of work, came in from the Duckwater country filled with enthusiasm over the dawning sunshine and the prospect of getting down to the real business of drilling once more.

The party has been busy at Railroad Valley drilling the No. 3 hole which was put down a mile and six tenths northeast of the No. 2 hole to a depth of 770 feet. The slow time made on this hole was due to the constant succession of floods that kept washing and tearing out their ditches and dams which constitute the hardest part of every new location. By No. 3 the management has determined that the location was wrong but at the same time it indicated what Superintendent Walker was most anxious to ascertain and that was the probable right location to be three-quarters of a mile southwest of No. 2. In about a week No. 4 hole will be started and sent down without any of the exasperating delays incidental to the latest venture.

The difficulty in getting water to the drill is the most tedious part of each new location but with No. 3 it was particularly grievous as the ditches were washed out three times and ten days were lost in fighting floods.

Mr. Gale has been looking after development work on the potash claims at Columbus marsh, north of Tonopah, but has not been able to make much headway owing to the

MAINE DEFEAT OF DEMOCRATS IS A SURPRISE

BRYAN SAYS REPUBLICANS ARE GETTING TOGETHER AGAIN.

(By Associated Press.)
WASHINGTON, Sept. 9.—William J. Bryan attributes the defeat of Pettigill, democratic candidate for congress at the Maine election, to a return to the republican party of a large number of progressives combined with local influences. He says the result is disappointing but not discouraging when conditions are considered.

CONSERVATION TAKEN UP BY SECRETARY

PROBLEMS IN CALIFORNIA CONSIDERED BY SECRETARY OF INTERIOR.

(By Associated Press.)
LOS ANGELES, Sept. 9.—Secretary Lane arrived today and proceeded to take up irrigation and reclamation problems, granting an audience to representatives from Arizona and the California river regulation commission. He discussed the needs of the Imperial valley also.

EUROPEAN TEAMS FOR THE EXPOSITION SPORTS

(By Associated Press.)
LONDON, Sept. 9.—England, Germany, France, Russia, Finland, Denmark, Sweden and Austria have definitely promised James Sullivan, secretary of the American Athletic union to send teams to the San Francisco exposition.

TEMPERATURE REPORT.

Highest temperature yesterday, 79; a year ago, 59.
Lowest temperature last night, 60; a year ago, 38.

interruption caused by the excessive rainfall.

Superintendent Walker excepts to the statement of an Ely motorist who reported the road between Tonopah and Ely via Hot Creek to be completely washed out. Mr. Walker says that between Hot Creek and Carrant Creek the road is in fair shape but that down on the Raisin Flat for a distance of about eight miles considerable work will have to be done by Nye county to render the roads fit for heavy travel.

SECRETARY LANE FAINTS WHILE WATCHING PARADE

COMPLAINED OF HEART TROUBLE AND COLLAPSED ON THE STREET.

(By Associated Press.)
OAKLAND, Sept. 9.—Secretary Lane had a fainting spell today while watching the Native Son parade. He complained of heart trouble before the parade. He was taken to the home of his brother at Berkeley. His conditions is not regarded as serious. He stopped en route to Los Angeles to attend the celebration. Heat is regarded as the cause.

REBEKAH MEMBER GOES TO HER REST

MRS. ELIZA MUNDY, FROM EUREKA, UTAH, SUCCEUMS TO AN OLD SICKNESS.

Mrs. Eliza Mundy, wife of Peter Mundy, died this morning from a cancerous affection that had afflicted her for some time. The body will probably be taken to Salt Lake for interment.

Mrs. Mundy came here with her husband from Eureka, Utah, eleven months ago and resided on St. Patrick street, back of the Miners Exchange hall. She was a member of the Rebekahs of Eureka and was born in Cornwall, England, fifty years ago. The funeral arrangements are in charge of Wonacott & Cavanaugh.

AVIATOR KILLED.

(By Associated Press.)
BERLIN, Sept. 9.—Dr. Ringer, a German aviator, was killed today by falling 600 feet.

MANUAL TRAINING TEACHER PROPOSES TO PUT TONOPAH AHEAD OF ALL OTHERS

A. C. Blair from Newark, Ohio, has entered upon his duties at the new high school preparing for the introduction of manual training in the schools of Tonopah. This will be a very desirable course and parents will find that Mr. Blair is well qualified for the special work.

"In introducing manual training into the high school work we are filling a long felt need," said Mr. Blair, this morning to a Bonanza reporter. "We always find some pupils who do not take readily to the regular high school course and it is for those that the work is primarily intended. Work with the hands is always interesting and if we can place in our schools subjects which will take the dissatisfied boy and make of him an earnest student we benefit not only the boy but the whole community. There is no man in any line of business who does not daily wish he were efficient in the use of tools and a boy so trained will always be glad he was able to receive such training."

"Byron W. King, of the King school of Pittsburg, says: 'Take a boy from his studies two hours a day and let him use tools and his work the rest of the day will be enough better to more than make up the two hours.' We are putting the course in the Tonopah schools this

CELEBRATION OF ADMISSION DAY BY A BIG PARADE

OLDEST NATIVE SON LOUDLY CHEERED BY CROWDS OF SPECTATORS.

(By Associated Press.)
OAKLAND, Sept. 9.—Fifteen thousand paraded today to celebrate the 63d natal day. Pioneers and Mexican war veterans were included. The parade included 150 elaborate floats. The four day celebration ends tonight with fireworks.

Stephen Richardson, the oldest Native Son of California, preceded the governor in the parade and was loudly cheered. The oration was by Hon. John E. Davis on "The Admission of California into the Union."

HUERTA TRYING INFLUENCE THE PUBLIC MIND

ISSUES A CIRCULAR CALLING FOR RECRUITS TO REPEL INVASION.

(By Associated Press.)
PIEDRAS NEGRAS, Mexico, Sept. 9.—A manifesto claimed by the constitutionalists to be an attempt by Huerta to gain recruits intimating that Mexico is in danger of invasion from the United States was received today. It calls on Mexicans to rise and "sweep back certain invasions from the north."

TEST TO BE GIVEN IN THE PHILIPPINES

PRESIDENT WILSON ORDERS A REPORT TO BE MADE ON CONDITIONS.

(By Associated Press.)
SAN FRANCISCO, Sept. 9.—Francis Burton Harrison departed today for the Philippines to assume the duties of governor general. He said the Wilson administration will make a thorough investigation of the problem for a year and a half before determining what should be done regarding independence.

DIED OF PARALYSIS.

(By Associated Press.)
SACRAMENTO, Sept. 9.—Mrs. Florence Radcliff, wife of George Radcliff, superintendent of capital grounds, died today of paralysis, age 43.

ONE MAN MAY DIE FROM WOUNDS INFLICTED BY PARTNER IN DISPUTE OVER A SHORT GAME OF SEVEN UP

Last evening Sheriff Ed Malley brought William Boyd in from Ione where he cut a man named Reynolds in four places. The prisoner is held waiting the effect of the wounds, one of which may prove fatal.

Reynolds and Boyd, according to the story told by the latter, were playing a game of seven up with the understanding that when they reached seven points the play was to cease. At the indicated time Reynolds did not want to stop and insisted on continuing the play. Boyd

reached seven points the play was to cease. At the indicated time Reynolds did not want to stop and insisted on continuing the play. Boyd

KEEPS CYANIDE IN A BRACELET TO USE IN A WRECK

FORMER WIFE OF GOVERNOR CARRIES POISON TO END SUFFERING.

NEW YORK, Sept. 9.—"This wreck of the New Haven makes me believe more and more in my charmed bracelet. I never go by train, auto, or boat without wearing my cyanide of potassium bracelet."

Mrs. Claire McMillan, former wife of Governor Odell of Nevada, and cousin of Uncle Joe Cannon, made these remarks. She is still young and very beautiful.

A gold bracelet filled with cyanide of potassium? Who ever heard of a bracelet so tragic in its meaning? Mrs. McMillan says she has worn it since a train wreck in 1904 when between Tonopah and the California line, she was "splashed out on the desert."

"The accident was so terrible," she says, "and I was so unprepared for a tragedy that the hand there on the western desert, where I lay all day in the hot sun, almost dying for a drop of water. I made up my mind that if ever I escaped alive I should wear about me a dose of potassium cyanide that would end my misery."

"I still wear my bracelet, and although I have escaped injury, I have been in racing automobiles going 81 miles an hour, and in other dangerous situations and it gave me confidence; for, after all, one must die, but why suffer?"

CRIPPLE CREEK PAIR MARRIED AT FRISCO

MISS CONAGHAN AND BILL DAVIS GO AWAY TO SURPRISE THEIR FRIENDS.

Bill Davis, of the Stope saloon, returned this morning from San Francisco, where according to best of reports he was married to Miss Nora Conaghan, who formerly conducted the candy store next the Butler theater.

In the estimation of their friends there is no doubt of the affair having been pulled off but the timidity of the bridegroom is ascribed to the fear of his friends imposing the third degree for taking advantage of them in going to the bay city. Both parties to the wedding are from Cripple Creek where they first got acquainted, but it was not until four years residence in Goldfield and Tonopah that the flame ripened into a proposal. Mr. Davis went to San Francisco last week but he had been preceded by Miss Conaghan two weeks previously. The latter will return next week when their friends propose to give them a reception.

HORSE CLIMBS INTO BUGGY AND INJURES DRIVER

"Zip" Emmitt received a compound fracture of the right leg below the knee last evening shortly after six o'clock by being struck with the hoofs of a horse he was leading behind his rig. The horse was frightened at a passing auto and climbed into the rig. "Zip" was thrown from the cart to the side of the road and did not know he was injured until he tried to rise. He then crawled into the road and called for aid and a passing rig brought him to his rooms.—Carson News.

refused to go further and then he says Reynolds rushed at him with a weapon raised to strike. In self defense he drew a knife and prepared to meet his adversary who came at him with an upraised chair. Then they closed and the knife was used with such effect that Reynolds fell to the floor bathed in his own blood.

At first it was supposed he would die from the blow but when this was checked by spectators the injured man rallied. In the meantime a messenger was sent to Austin for a physician who came and administered first aid measures. He found Reynolds so weak from loss of blood that he could not be removed. One wound is in the left cheek. Another cut was on the right jaw which was laid open to the bone and the third and most serious was an incision over the kidneys on the left side which had begun to develop symptoms before the sheriff left with the prisoner.

Both men are old timers and are well known around Austin and Ione where they have mined for years.

CURRENCY BILL PUNCTURED BY THE REPUBLICANS

HIDEBOUND CAUCUS WOULD NOT PERMIT DEMOCRATS TO AMEND.

(By Associated Press.)
WASHINGTON, Sept. 9.—The administration currency bill as approved by the democratic caucus was reported today in the house. Representative Hays of California presented the report of the republicans criticizing the proposing of various amendments.

The republicans, he said, found the democrats so bound by caucus action that they could not consider amendments that would eliminate unsound or questionable provisions. The majority report says it is intended to bring about necessary changes in the present banking and currency system to correct long standing evils, although it does not seem to make all innovations it might, which from an ideal standpoint are deemed desirable.

FIXING VALUATIONS OF NEVADA LINES

BIG UNDERTAKING TAKEN UP BY INTERSTATE COMMERCE COMMISSION.

A party of United States government men is camped on the green by the Humboldt river bridge, having arrived yesterday via the Western Pacific. The camp contains five tents and the party is said to number twelve or fifteen men.

The work these men have come to do is to examine all railroad property in this section and place valuations upon it. The valuations of depots, freight and storage houses and all other buildings will be estimated; the sidetracks will be counted and measured and every item of property owned by the railroad companies will be appraised. The party has mules and wagons and will work several miles in both directions from Winnemucca. The work will cover both the Southern Pacific and the Western Pacific. Further west than Winnemucca the work cannot be covered on both roads by one crew, as the roads divide here.

Want Three Men In One Sentence

SAN FRANCISCO, Sept. 9.—Special Assistant Attorney General Roache announced today he would ask tomorrow that sentence of Diggs and Caminetti be postponed until after the trial of Diggs' attorney, Harris, for subornation of perjury, which will be called this week. He wants all cases complete before any is sentenced.

Certificates of location on sale at a Bonanza office.

POOR EQUIPMENT CAUSES LOSS AT HOT SPRINGS FIRE

SOME OF THE REASONS WHY A LOSS OF MILLIONS WAS CONTRACTED.

(By Associated Press.)
HOT SPRINGS, Sept. 9.—According to a report of the Arkansas actuarial bureau the property loss by the fire was \$2,225,000; insurance \$1,500,000. Blame is placed on poor building construction, an inefficient water system, poor fire fighting apparatus and treacherous winds.

ZADIG INSISTS STAR WILL PAY XMAS DIVIDEND

PREDICTS RAPID DEVELOPMENT AFTER AIR CONNECTIONS ARE ESTABLISHED.

"I never go down into the North Star without being more impressed with the potentialities of that property," remarked Hermann Zadig, president of the company, this morning as he was about leaving for Goldfield to look at the Silver Pick property. "I don't know what to say about the action of the stock market or what caused the depression yesterday, but I do know the mine is looking better all the time. I am certain that between next Monday and Wednesday we will be ready to start sinking on the 1050 when work will be rushed with all possible speed to the 1150. As soon as the 1150 is reached we will start on the 1250 and make an upraise to connect with the 1150 to give better air and enable us to open the two levels at the same time."

"I expect the air will be in the shaft some time next week which will enable us to do a lot of work on the 1050 which we had not been able to do for want of having sufficient drills. We are now really beginning to open up the different veins we have struck on the 1050 level and which heretofore we have not been able to do for want of equipment."

"Regarding that dividend I will say, as I said months ago, that the North Star will be able to pay a dividend to stockholders before Christmas."

Thomas F. McCormick of the Comstock, who accompanies Mr. Zadig, is one of the best known superintendents on the old lode, having spent thirty years of his life in Virginia City. He worked as a miner and became superintendent on his merits, earning a reputation that he richly deserved. He is liked by the miners of his home camp as they feel he is one to whom they can address themselves at all times and find a humane sympathizer. He says the North Star looks good and he is of the opinion from a cursory examination, that the property will develop into a great mine and that it will grow richer with depth.

THROUGH INCH OF IRON.

Louie Amundsen is of an inquisitive turn of mind and as a result he is showing a piece of one inch iron boiler plate that he pierced with a U. S. army regulation bullet. A thinner piece of steel was not perforated but shows the indentation of the missile.

THIRTY INJURED IN A WRECK

(By Associated Press.)
RICHMOND, Ind., Sept. 9.—Thirty persons, mostly negroes, were injured today by the wreck of the St. Louis Flyer on the Pennsylvania road. Six coaches, locomotive and tender were dinged by a raised rail.
